

Nebel

An aromatic, off-dry (slightly sweet), Riesling from the Rheinhessen wine region of Germany.

The story of Nebel

Vines grown along the rolling hills of the Rhine River in Germany's famed Rheinhessen region are aided and abetted by the fog - Nebel- that rises from the river on cold winter mornings. Keeping temperatures above freezing, Nebel allows Rheinhessen grapes to grow to their full potential.

Enjoy with green salads, ceviche, or sushi!
